WHAT IS GEBERIT ISOL?

Geberit Isol is a sound absorbing mat that delivers significant noise reduction (by increasing the surface area by 30%)

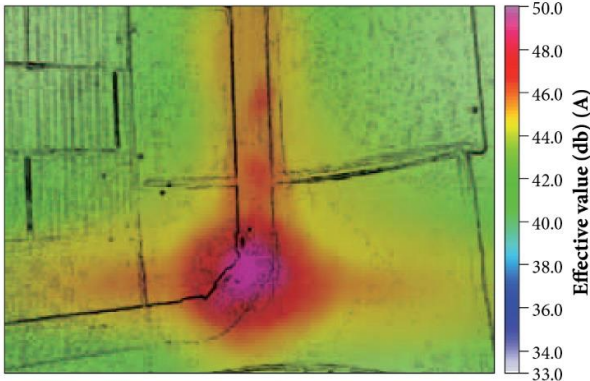

Geberit Isol is compatible with any drainage pipes-Geberit HDPE, PVC, etc.

Geberit Isol consists of a covering foil that prevents the ingress of moisture

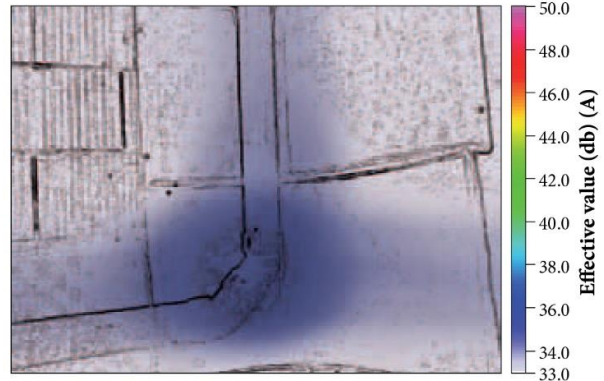

Geberit Isol is lead-free and PVC free and it poses no ecological hazards

The pictures hereafter show the sound difference between the application with and without Geberit Isol in colours.

Without Geberit Isol insulation:

With Geberit Isol insulation:

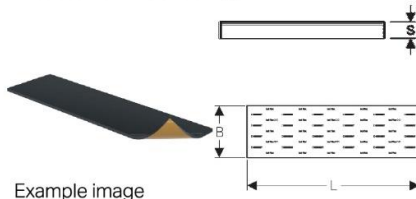

Geberit sound insulation mat Isol Flex, precut for pipe

Application purposes

- For airborne sound insulation and structure-borne sound decoupling
- Suitable to some extent for use as an anticondensation insulation for rain water pipes
- Precut to fit pipe diameter
- Surface suitable for adhesive tape
- Fire protection class 5.2 in accordance with VKF
- Building material class B2 in accordance with DIN 4102-1
- Class E in accordance with DIN EN 13501-1

Characteristics

- Self-adhesive
- Sound-insulating

Technical data

Installation temperature	-5 – +40 °C
Storage temperature	-20 – +60 °C
Temperature resistance	-20 – +80 °C
